OMB Review of Pesticide Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before May 27, 1997.

FOR FURTHER INFORMATION OR A COPY

CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1249.05.

SUPPLEMENTARY INFORMATION:

Title: Record Keeping Requirements for Certified Applicators Using 1080 Collars for Livestock Protection.

ICR No.: OMB Control No. 2070-0074; EPA ICR No. 1249.05.

Expiration Date: May 31, 1997. This is a request for an extension of a currently approved information collection activity.

Abstract: As a condition of the Sodium Monofluoroacetate (Compound 1080) registration, the EPA has required submission of annual reports monitoring use of all of Livestock Protection Collar products. This ICR is a recordkeeping activity in which respondents keep records of: (a) Number of collars purchased; (b) number of collars placed on livestock; (c) number

of collars punctured or ruptured; (d) apparent cause of puncture or rupture; (e) number of collars lost or unrecovered; (f) number of collars in use and in storage; and (g) location and species data on each animal poisoned as an apparent result of the toxic collar. As a condition of registration, the EPA has required submission of annual reports monitoring use of all of Livestock Protection Collar products as required by a 1982 court decision. The main purpose of the recordkeeping requirements is to promote responsible use and handling, and the main purpose for requiring monitoring reports is to establish a process through which it is mandatory to inform the EPA of the results of collar use.

Parties affected by this information collection are registrants of 1080 collars, the state lead agencies of participating states, and certified pesticide applicators using the 1080 collars for livestock protection.

Burden Statement: The annual respondent burden for the 1080 Livestock Collar Program is estimated to average 32 hours per certified applicator, 77 hours per state, and 9 hours per registrant participating in the program. This estimate includes the time needed for: planning activities, creating information, gathering information, processing, compiling, and reviewing information for accuracy, recording, disclosing or displaying the information, and storing, filing, and maintaining the data. Third party notification is included in this ICR as the applicators are reporting to state lead agencies. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Respondents/Affected Entities:

registrants and applicators of 1080 collars, and participating States.

Estimated No. of Respondents: 161.

Estimated Total Annual Burden on Respondents: 6,439 hours.

Frequency of Collection: annual.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the following addresses. Please refer to EPA No. 1249.05 and OMB Control No. 2070-0074 in any correspondence.
